CHAIRMAN'S STATEMENT 主席報告

BUSINESS REVIEW

The Group has recorded a loss attributable to owners of the Company of approximately HK\$1,452,609,000 for Year 2021, as compared with that of approximately HK\$317,641,000 for the year ended 31 December 2020 ("Year 2020"). Basic loss per share of the Company ("Share") was 63.02 HK cents for Year 2021 (Year 2020: 13.78 HK cents).

In 2021, with the adoption of proactive fiscal and monetary policies by countries around the world and the continuous increase in the global Coronavirus Disease-2019 ("COVID-19") vaccination rate, the world's major economies had started their road to economic recovery. In particular, China's GDP for 2021 which had increased by 8.1% year-on-year and exceeded RMB110 trillion, achieved a ranking of second in the world. The performance of industrial production and exports in China was particularly outstanding during the year under review. However, under the continuing impact of a series of real estate market regulation policies issued by the Chinese central government, a number of large and medium-sized real estate developers in China experienced credit crises in the second half of 2021, which had an adverse impact on the capital markets of mainland China and Hong Kong.

Investments

While 2021 marked the beginning of the 14th Five-Year Plan of the People's Republic of China ("PRC"), the prevention and resolution of material risks, in particular systemic financial risks, would likely to remain a formidable challenge. During the year under review, the financial regulatory authority of the PRC gave repeated warnings about the rebound risk of non-performing assets and urged for the speeding up of the disposal of non-performing assets by the market players and the resolution of the risks faced by the small-to-medium sized financial institutions. On the other hand, the Chinese government has fostered the development of new businesses such as non-performing personal loans, non-performing trusts and bankruptcy reorganisation, contributing to the continuous orderly expansion of the non-performing asset market.

During the year under review, the Group acquired non-performing asset portfolios consisting of mainly non-performing loans from certain commercial banks and an asset management company. As at 31 December 2021, the total principal and accrued interest of the investments held in these non-performing asset portfolios amounted to approximately RMB1,220 million in aggregate. During the year under review, the Group's investment team made vigorous moves to expedite the judicial disposal procedures

Investments *(Continued)*

Notwithstanding that the real estate industry in China is facing a new round of reshuffle, a number of high-quality property projects are yet to be discovered by investors. In light of the "Greater Bay Area" initiative of the PRC government which is to spur deeper regional economic and financial integration in Hong Kong, Macau and the Pearl River Delta Region, the Group has become confident in the property market in the Guangdong-Hong Kong-Macau Greater Bay Area ("Greater Bay Area"). The Group considers the prospects of the urban redevelopment projects in the Greater Bay Area to be particularly promising, taking into consideration the prime locations of the underlying urban land of these projects in the region. As at the date of this annual report, the Group is in the course of setting up an investment fund which will invest in urban redevelopment projects in the Greater Bay Area. Upon completion of the establishment of this fund, the Group will prepare for the launch of other fund products, aiming at gaining a foothold in the urban redevelopment project investments in the Greater Bay Area and creating investment returns for the

Group. 二零二一年年報 7

BUSINESS REVIEW (Continued)

Investments (Continued)

The objective of the Group in relation to its investments in financial assets is to capture returns from the appreciation in the values of its investments and to receive income therefrom. The Board believes that the performance of the financial asset investments of the Group is dependent on the financial and operating performance of the investee companies and market sentiment, which are affected by factors such as interest rate movements, national policies and performances of other economies globally. Among its previously invested projects, the Group is currently seeking exit opportunities after assessing the financial and operational performance of these investments against the Group's expectation, which will allow the Group to recover its capital and invest in projects with higher returns in the next few years. The Group will continue to adopt a prudent investment approach and closely monitor the performance of the investments in its portfolio. To prepare for any potential economic downturn and market volatilities that may arise from further outbreaks of the pandemic, the Group will adjust the mix in its investment portfolio by increasing its short-term investments to improve the liquidity of the Group. In addition, the Group will seek to explore other investment opportunities of high growth potential for portfolio diversification, such as urban redevelopment projects in the Greater Bay Area in China and green investments.

Property Leasing

The rental income from the Group's property leasing business decreased from approximately HK\$89,128,000 in Year 2020 to approximately HK\$87,376,000 in Year 2021. Revenue from the Group's property leasing business segment was mainly derived from East Gate Plaza, an investment property of the Group in Beijing, China, which is comprised of a residential section and a commercial section. Due to the ongoing COVID-19 pandemic, the average rental rate per square metre of East Gate Plaza declined in Year 2021 notwithstanding that its occupancy rate had maintained at approximately 80% from Year 2020 to Year 2021, resulting in a slight decrease in the revenue generated from this segment for Year 2021. The Group has kept on making timely adjustment to its property leasing business strategy by actively recruiting new tenants for vacant areas and retaining its existing tenants, in order to boost the occupancy rate of the property. In light of the large-scale outbreaks of the pandemic that took place in China in the first quarter of 2022, the chance for the rental market in Beijing to improve is expected to be slight. As such, in addition to relying mainly on its internal marketing staff, the Group will also step up its marketing efforts by engaging more property agents in securing tenants for its vacant units.

物業租賃

本集團物業租賃業務的租金收入由2020年度約89,128,000港元減少至2021年度約87,376,000港元。本集團之物業租賃業務分部收入主要來自本集團在中國北京之投資物業東環廣場(包括住宅部分及商業部分)。由於新冠肺炎疫情的持續影響，東環廣場於2021年度每平方米的平均租金有所下降，儘管其於2020年度至2021年度的出租率維持約80%，惟仍導致該分部於2021年度產生的收入錄得輕微下跌。本集團一直及時調整物業租賃經營策略，積極開展空置區域的新一輪招商工作和現有租戶的維穩工作，以期提升該物業出租率。鑒於中國於2022年第一季度爆發大規模疫情，北京租賃市場出現好轉的機會預期僅屬輕微。因此，除主要依賴其內部市場營銷員工外，本集團亦將透過聘請更多物業經紀為其空置單位覓得租戶，從而加大營銷力度。

CHAIRMAN'S STATEMENT 主席報告

PROSPECTS AND OUTLOOK

As 2021 drew to a close, the spread of the highly contagious Omicron variant of COVID-19 has brought new uncertainties to the global economic recovery. The rising inflation and expectation of tighter U.S. monetary policy further cast a cloud over the recovery outlook. In China, under the continuous impact of the pandemic, the pace of recovery varied across different domestic sectors, and the consumption of the residents has not returned to its pre-pandemic level. On the other hand, the pandemic has accelerated the digital transformation of China's economy, with rapid increase in the growth rate of mobile applications and investments in related fields. The proposed "carbon neutrality" and "emission peak" strategic goals of the Chinese government have also greatly advanced the domestic green transformation, providing a good momentum to the development of the green industry in the country.

At this epic time of crises and opportunities, the Group will fully mobilise its own resources to explore investment opportunities in high-growth areas such as technological innovation, green development and urban redevelopment, and at the same time improve the operating strategies of its property leasing business in order to increase the occupancy rate of its properties.

The Company's joint venture, Zhong Hai You Qi, will carry out certain technological modification projects in its existing factories in a stable manner, optimise its product structure and improve its product quality for the purposes of further cost reduction and efficiency enhancement. It will also seek support from its shareholders to develop its high-end lubricating oil products and chemical products.

MATERIAL ACQUISITIONS AND DISPOSALS

The Group did not have any material acquisition or disposal during Year 2021.

前景及展望

隨著2021年接近尾聲，高傳染性變異新冠病毒「奧密克戎」的傳播給全球經濟復蘇帶來了新的不確定性，通脹上升及美國貨幣政策收緊的預期進而給復蘇前景蒙上了一層陰影。在疫情的持續影響下，我國不同行業的復蘇狀況存在較大的差異，居民消費亦尚未恢復到其疫情前水平。另一方面，疫情加速了中國經濟數字化轉型，相關領域的移動應用和投資增速快速提高，而中國政府的碳達峰碳中和戰略目標的提出亦大大加快了我國綠色轉型的步伐，為國內的綠色產業的發展帶來

FINANCIAL REVIEW

The loss attributable to the owners of the Company increased by approximately 357.3% from approximately HK\$317,641,000 for Year 2020 to approximately HK\$1,452,609,000 for Year 2021 and the basic loss per share attributable to ordinary equity holders of the Company increased from 13.78 HK cents for Year 2020 to 63.02 HK cents for Year 2021, mainly due to the following:

- (i) the increase in the loss from the fair value of the financial assets at fair value through profit or loss of the Group from approximately HK\$667,000 for Year 2020 to approximately HK\$102,689,000 for Year 2021, mainly attributable to the decrease in the fair value of the financial assets at fair value through profit or loss held by the Group as at 31 December 2021, as a result of the gloomy economic outlook at the end of Year 2021 in light of the global outbreak of the Omicron variant of COVID-19 and the ongoing economic conflict between the United States and the PRC;
- (ii) the increase in the finance costs incurred by the Group from approximately HK\$216,675,000 for Year 2020 to approximately HK\$410,008,000 for Year 2021, mainly as a result of the issuance by the Company of the 7.5% senior secured guaranteed note in the aggregate principal amount of US\$19,800,000 ("Senior Note") in December 2020 and the increase in the Group's other borrowings during Year 2021 as compared with those during Year 2020;
- (iii) the decline in the financial performance of 信達建潤地產有限公司 (Cinda Jianrun Property Company Limited*) ("Cinda Jianrun"), an associate of the Company, from a share of profit in Year 2020 of approximately HK\$3,325,000 to a share of loss of approximately HK\$43,669,000 in Year 2021, mainly due to the decrease in the fair value of the financial assets at fair value through profit or loss held by Cinda Jianrun as at 31 December 2021; and

財務回顧

本公司擁有人應佔虧損已由2020年度約317,641,000港元增加約357.3%至2021年度約1,452,609,000港元，而本公司普通權益持有人應佔每股基本虧損由2020年度的13.78港仙增加至2021年度的63.02港仙，主要由於以下各項因素：

- (i) 本集團以公允值計量且其變動計入損益的金融資產的公允值虧損由2020年度的約667,000港元增加至2021年度的約102,689,000港元，主要是由於全球爆發新冠肺炎的變種病毒「奧密克戎」及中美之間持續的經濟沖突，令2021年度年末經濟前景暗淡，以致本集團於2021年12月31日所持有以公允值計量且其變動計入損益的金融資產的公允值減少；
- (ii) 本集團所產生的融資成本由2020年度約216,675,000港元增加至2021年度約410,008,000港元，乃由本公司於2020年12月發行7.5%優先有抵押有擔保票據(本金總額為19,800,000美元)(「優先票據」)以及2021年度相比2020年度增加的本集團的其他貸款所致；
- (iii) 本公司的聯營公司信達建潤地產有限公司(「信達建潤」)的財務表現下降，由2020年度的攤佔溢利約3,325,000港元下降至2021年度的攤佔虧損約43,669,000港元，主要是由於信達建潤於2021年12月31日持有的以公允值計量且其變動計入損益的金融資產的公允值減少；及

Finance costs

The increase in finance costs of the Group from approximately HK\$216,675,000 for Year 2020 to approximately HK\$410,008,000 for Year 2021 was mainly resulted from the issuance by the Company of the Senior Note in the aggregate principal amount of US\$19,800,000 in December 2020 and the increase in the Group's other borrowings during Year 2021 as compared with those during Year 2020.

Share of profits or losses of associates

The share of profits or losses of associates mainly represented the Company's share of the loss for Year 2021 from its associate, Cinda Jianrun, of approximately HK\$43,669,000, which had turned from its share of the profit of Cinda Jianrun for Year 2020 of approximately HK\$3,325,000, mainly due to the decrease in the fair value of the financial assets at fair value through profit or loss held by Cinda Jianrun as at 31 December 2021.

Share of profits or losses of joint ventures

The share of profits or losses of joint ventures represented the Company's share of the loss from its joint venture, Zhong Hai You Qi, for Year 2021 of approximately HK\$1,417,546,000, which had substantially increased from that of approximately HK\$404,061,000 for Year 2020, mainly attributable to the additional sales tax and related tax surcharge and late fees for prior years incurred by Zhong Hai You Qi during Year 2021 following a tax self-review conducted as required by the relevant tax authority in the PRC.

Deposits, prepayments and other receivables

The increase in the Group's deposits, prepayments and other receivables from approximately HK\$420,467,000 as at 31 December 2020 to approximately HK\$714,075,000 as at 31 December 2021 was mainly attributable to (i) the increase in the deposits paid by the Group during Year 2021 to acquire non-performing assets; and (ii) the increase in the accrual of interest receivables due to more advances having been made by the Group during Year 2021.

Risk Management and Internal Control

The Board is responsible for ensuring that the Company has effective risk management and control systems. The Board evaluates the effectiveness of the systems at least annually. A review of the effectiveness of the risk management and internal control systems of the Group for Year 2021 was conducted.

Risk Management and Internal Control System

The Company's risk management and internal control systems are designed to manage and mitigate risks, rather than eliminate risks, and can only provide reasonable and not absolute assurance against material misstatement or loss. The Company has employed a bottom-up approach for the identification, assessment and mitigation of risks at business unit level and across functional areas.

Main Features of Risk Management and Internal Control Systems

The key elements of the Company's risk management and internal control systems include the establishment of a risk register to track and document identified risks, the assessment and evaluation of risks, the development and continuous updating of responsive procedures, and the ongoing testing of internal control procedures to ensure their effectiveness.

An ongoing risk assessment approach is adopted by the Company for identifying and assessing new risks. The identified risks will be recorded in the risk register which will be reviewed regularly. After considering the control measures against the risks identified, a risk matrix is adopted to determine the risk rating (L=low risk, M=medium risk, H=high risk) after evaluation of each risk identified by the likelihood and the impact of the risk event.

風險管理及內部監控

董事會在確保本公司推行有效的風險管理制度及內部監控制度方面肩負責任。董事會每年最少一次檢討該等系統的有效性。於2021年度，已就本集團風險管理及內部監控系統的成效作出檢討。

風險管理及內部監控系統

本公司的風險管理及內部監控系統並非著眼於消除風險，而是要管理及緩解風險，並且只能就不會有重大的失實陳述或損失作出合理而非絕對的保證。

Process Used to Identify, Evaluate and Manage Significant Risks

During the process of risk assessment, the risk owner of each of the departments of the Group and major subsidiaries of the Company is required to capture and identify the key inherent risks that affect the achievement of its objectives. Each inherent risk is evaluated according to the risk matrix. After taking into consideration the risk response, such as control measures in place to mitigate the risk, the residual risk of each inherent risk is evaluated again and categorised according to its risk level. The risk register with the risk responses and residual risks is reported to the Audit Committee. The Audit Committee, acting on behalf of the Board, evaluates the effectiveness of the risk management and internal control systems of the Group. The residual risks in the highest category will be subject to the Board's oversight.

Issue of Convertible Bonds (Continued)

Completion of the JIC Subscription and the Connected Subscriptions took place on 3 July 2019. The gross proceeds from the issue of the Convertible Bonds were in the amount of HK\$1,150,000,000. The net proceeds from the issue of the Convertible Bonds, after deduction of all relevant costs and expenses, amounted to approximately HK\$1,147,000,000, among which (i) approximately HK\$500,000,000 would be used for repaying the Company's short-term debts; (ii) approximately HK\$400,000,000 would be used for expanding the Company's business to the financial investment and service industry, such as acquisition of and investment in distressed debts in the PRC; and (iii) approximately HK\$247,000,000 would be used as general working capital of the Company. As at the date of this annual report, the net proceeds have been fully utilised as intended.

Principal terms of the Convertible Bonds

Dilutive impact of the conversion of the Convertible Bonds

As at the date of this annual report, none of the Convertible Bonds has been converted.

Assuming there is full conversion of the Convertible Bonds at the Conversion Price of HK\$2.33 per Share, the net subscription price for each Conversion Share is approximately HK\$2.32 per Share and an aggregate of 493,562,227 Shares shall be allotted and issued (among which 85,836,909 Shares will be issued under the Placing and 407,725,318 Shares will be issued under the Connected Subscriptions), representing approximately 21.4% of the total number of Shares in issue as at the date of this annual report and approximately 17.6% of the total number of Shares in issue as enlarged by the allotment and issue of the Conversion Shares (assuming no other change in the issued share capital of the Company). Such allotment and issue of the Conversion Shares will result in the respective shareholdings of the Shareholders being diluted by approximately 17.6%.

意見

本核數師(以下簡稱「我們」)已審核列載於第105頁至第257頁的銀建國際控股集團有限公司(「貴公司」)及其附屬公司(統稱「貴集團」)的綜合財務報表,此綜合財務報表包括於2021年12月31日的綜合財務狀況表及於截至該日止年度的綜合損益表、綜合全面收益表、綜合權益變動表及綜合現金流量表,以及綜合財務報表附註,包括主要會計政策概要。

我們認為,該等綜合財務報表已根據香港會計師公會(「香港會計師公會」)頒佈的《香港財

Basis for opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty related to going concern

We draw attention to Note 2.1 to the consolidated financial statements which indicates notwithstanding that the Group had net current assets of approximately HK\$1,776 million as at 31 December 2021, there are identified events or conditions that indicate the existence of a material uncertainty related to going concern, when considering that the Group's current portion of interest-bearing bank and other borrowings and convertible bonds amounted to approximately HK\$1,843 million in aggregate while its cash and bank balances amounted to approximately HK\$117 million. This, along with other matters as set forth in Note 2.1 to the consolidated financial statements, may cast significant doubt about the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

意見的基礎

我們已根據香港會計師公會頒佈的《香港審計準則》(「香港審計準則」)進行審計。我們在該等準則下承擔的責任已在本報告「核數師就審計綜合財務報表承擔的責任」部分中作進一步闡述。根據香港會計師公會頒佈的《專業會計師道德守則》(以下簡稱「守則」)，我們獨立於貴集團，並已履行守則中的其他專業道德責任。我們相信，我們所獲得的審計憑證能充足及適當地為我們的審計意見提供基礎。

有關持續經營之重大不確定性

我們提請注意綜合財務報表附註2.1，該附註表明，儘管貴集團於2021年12月31日的流動資產淨額約為1,776,000,000港元，但考慮到貴集團的計息銀行及其他借貸及可換股債券的流動部分合共約為1,843,000,000港元，而其現金及銀行結餘約為117,000,000港元，因此仍存在已識別的事件或情況表明存在與持續經營相關的重大不確定性。該事項連同綜合財務報表附註2.1所述的其他事項，可能對貴集團的持續經營能力構成重大疑慮。我們之意見並無就此事宜作出修改。

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. In addition to the matters described in the *Material uncertainty related to going concern* section of our report, we have determined the matters described below to be key audit matters to be communicated in our report. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

As at 31 December 2021, the Group had investment properties and leasehold land and buildings under property, plant and equipment, which were stated at fair value, with an aggregate carrying amount of approximately HK\$2,971 million. The carrying amount of the investment properties and leasehold land and buildings represented approximately 26% of the total assets of the Group as at 31 December 2021.

於2021年12月31日，貴集團擁有物業、廠房及設備項下的投資物業以及租賃土地及樓宇的賬面值總額按公允價值約2,971,000,000港元列賬。於2021年12月31日，投資物業以及租賃土地及樓宇的賬面值佔貴集團總資產約26%。

The Group engaged external valuers to determine the fair value of the investment properties and leasehold land and buildings at the end of the reporting period. 貴集團於報告期末委聘外部估值師釐定投資物業以及租賃土地及樓宇的公允價值。

We identified this as a key audit matter because the carrying amount of the investment properties and leasehold land and buildings was significant to the Group and subjective judgements were made by management in determining the assumptions and inputs of the valuation.

由於投資物業以及租賃土地及樓宇的賬面值對貴集團而言屬重大，且管理層於釐定估值之假設及輸入數據時作出主觀判斷，故我們識別此為關鍵審計事項。

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

1. Corporate and Group Information (Continued)

Information about subsidiaries (Continued)

- (i) The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the reporting year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

2.1 Basis of Presentation

As at 31 December 2021, notwithstanding that the Group had net current assets of approximately HK\$1,776 million, the Group's interest-bearing bank and other borrowings and convertible bonds in an aggregate amount of approximately HK\$1,843 million are due to be repayable within the next 12 months while its cash and bank balances amounted to approximately HK\$117 million.

In view of the above circumstances, the directors of the Company have given careful consideration to the Group's future liquidity requirements, operating performance and available sources of financing in assessing the Group's ability to operate as a going concern. The following plans and measures are formulated to manage the working capital and improve the financial position of the Group:

- (i) The Group will continue to implement measures to speed up the collection of outstanding loan receivables.
- (ii) The Group will continue to take measures to expedite the disposal of financial asset investments, including equity investments and non-performing assets portfolio.

1. 公司及集團資料(續)

附屬公司資料(續)

- (i) 上表載列董事認為主要影響本集團本報告年度業績或構成本集團淨資產重大部分的本公司附屬公司。董事認為，提供其他附屬公司的詳情會導致資料過於冗長。

2.1 呈列基準

儘管本集團於2021年12月31日的流動資產淨額約為1,776,000,000港元，惟本集團的計息銀行及其他借貸及可換股債券的流動部分合共約為1,843,000,000港元，且其須於未來十二個月內償還，而其現金及銀行結餘約為117,000,000港元。

鑒於上述情況，本公司董事在評估本集團持續經營能力時，已仔細考慮本集團未來流動資金需求、經營業績及可用資金來源。為管理營運資本，改善本集團財務狀況，本公司已制定以下計劃及措施：

- (i) 本集團將繼續採取措施加快收回未償還的應收貸款。
- (ii) 本集團將繼續採取措施加快處置金融資產投資，包括股權投資及不良資產組合。

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS 綜合財務報表附註

For the year ended 31 December 2021

截至2021年12月31日止年度

2.1 Basis of Presentation (Continued)

- (iii) The Group is actively negotiating with the holders of the convertible bonds for refinancing its convertible bonds due in 2022.

The directors of the Company have reviewed the Group's cash flow projections prepared by management, which cover a period of not less than twelve months from 31 December 2021. They are of the opinion that, taking into account the above-mentioned plans and measures, the Group will have sufficient working capital to finance its operations and to meet its financial obligations as and when they fall due. Accordingly, the directors of the Company are satisfied that it is appropriate to prepare the consolidated financial statements of the Group on a going concern basis.

Notwithstanding the above, there are inherent uncertainties as to whether the Group is able to achieve its plans and measures as described above. Whether the Group will be able to generate adequate cash flows to continue as a going concern would depend on (i) the successful and timely implementation of the plans and measures to speed up the collection of outstanding loan receivables; (ii) the successful and timely implementation of the plans for the disposal of financial asset investments; and (iii) the successful refinancing of its outstanding convertible bonds.

2.1 呈列基準(續)

- (iii) 本集團正積極與可換股債券持有人協商，為其於2022年到期的可換股債券進行再融資。

本公司董事已審閱管理層所編製涵蓋自2021年12月31日起不少於十二個月期間的本集團現金流量預測。彼等認為，經考慮上述計劃及措施，本集團將擁有充足營運資金為其營運提供資金及履行其到期的財務責任。因此，董事信納按持續經營基準編製本集團的綜合財務報表屬適當。

儘管上文所述，本集團能否實現其上述計劃及措施仍存在多項內在不確定事項。本集團能否持續經營將取決於：(i) 加快收回未償還應收貸款的計劃及措施的成功及及時實施；(ii) 處置金融資產投資計劃的成功及及時執行；及(iii) 就其未償還可換股債券成功進行再融資。

2.1 Basis of Presentation (Continued)

Should the Group be unable to achieve the above-mentioned plans and measures, the Group may be unable to continue to operate as a going concern, in which case adjustments would have to be made to adjust the values of the Group's assets to their recoverable amounts, to provide for any further liabilities which might arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effects of these adjustments have not been reflected in these consolidated financial statements.

2.2 Basis of Preparation

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties, leasehold land and buildings under property, plant and equipment, financial assets at fair value through profit or loss and derivative financial instruments, which have been measured at fair value. These financial statements are presented in Hong Kong dollars and all values are rounded to the nearest thousand (HK\$'000) except when otherwise indicated.

2.1 呈列基準(續)

倘本集團無法實現上述計劃及措施，本集團未必能繼續按持續經營業務基準經營，在該情況下，將不得不調整本集團

之資產負債

2.2 Basis of Preparation (Continued)

2.2 編製基準(續)

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries for the year ended 31 December 2021. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

2.2 Basis of Preparation *(Continued)*

Basis of consolidation *(Continued)*

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities

2.3 Changes in Accounting Policies and Disclosures

The Group has adopted the following revised HKFRSs for the first time for the current year's financial statements:

Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS16

Interest Rate Benchmark Reform — Phase 2

Amendment to HKFRS 16

Covid-19-Related Rent Concessions beyond 30 June 2021 (early adopted)

2.3 會計政策及披露之變動

本集團已於本年度財務報表首次採納下列經修訂香港財務報告準則：

香港財務報告準則第9號、香港會計準則第39號、香港財務報告準則第7號、香港財務報告準則第4號及香港財務報告準則

第16號修訂本

香港財務報告準則第16號修訂本

利率基準改革—第二階段

2021年6月30日後與Covid-19相關租金減免(提早採納)

2.3 Changes in Accounting Policies and Disclosures (Continued)

The nature and the impact of the revised HKFRSs are described below:

- (a) Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 address issues not dealt with in the previous amendments which affect financial reporting when an existing interest rate benchmark is replaced with an alternative risk-free rate ("RFR"). The amendments provide a practical expedient to allow the effective interest rate to be updated without adjusting the carrying amount of financial assets and liabilities when accounting for changes in the basis for determining the contractual cash flows of financial assets and liabilities, if the change is a direct consequence of the interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis immediately preceding the change. In addition, the amendments permit changes required by the interest rate benchmark reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued. Any gains or losses that could arise on transition are dealt with through the normal requirements of HKFRS 9 to measure and recognise hedge ineffectiveness. The amendments also provide a temporary relief to entities from having to meet the separately identifiable requirement when an RFR is designated as a risk component. The relief allows an entity, upon designation of the hedge, to assume that the separately identifiable requirement is met, provided the entity reasonably expects the RFR risk component to become separately identifiable within the next 24 months. Furthermore, the amendments require an entity to disclose additional information to enable users of financial statements to understand the effect of interest rate benchmark reform on an entity's financial instruments and risk management strategy. The amendments did not have any impact on the financial position and performance of the Group.

2.3 會計政策及披露之變動(續)

經修訂香港財務報告準則的性質及影響載述如下：

- (a) 現有利率基準由可替代無風險利率(「無風險利率」)取代時，香港財務報告準則第9號、香港會計準則第39號、香港財務報告準則第7號、香港財務報告準則第4號及香港財務報告準則第16號修訂本將處理影響財務申報之過往修訂未有處理的問題。該等修訂提供

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS 綜合財務報表附註

For the year ended 31 December 2021

截至2021年12月31日止年度

2.3 Changes in Accounting Policies and Disclosures (Continued)

- (b) Amendment to HKFRS 16 issued in April 2021 extends the availability of the practical expedient for lessees to elect not to apply lease modification accounting for rent concessions arising as a direct consequence of the Covid-19 pandemic by 12 months. Accordingly, the practical expedient applies to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022, provided the other conditions for applying the practical expedient are met. The amendment is effective retrospectively for annual periods beginning on or after 1 April 2021 with any cumulative effect of initially applying the amendment recognised as an adjustment to the opening balance of retained profits at the beginning of the current accounting period. Earlier application is permitted.

The Group has early adopted the amendment on 1 January 2021. However, the Group has not received Covid-19-related rent concessions and plans to apply the practical expedient when it becomes applicable within the allowed period of application.

2.3 會計政策及披露之變動(續)

- (b) 於2021年4月公佈的香港財務報告準則第16號修訂本將承租人的可行權宜方法延長十二個月，以選擇就Covid-19疫情的直接後果產生的租金寬減不應用租賃修改會計處理。因此，可行權宜方法適用於以下租金寬減：其租賃付款的任何減幅僅影響原到期日為2022年6月30日或之前的付款，前提是滿足可行權宜方法的其他條件。2021年修訂本適用於2021年4月1日或之後開始之年度，且應追溯應用，並將初時應用該修訂本的任何累積影響確認為對當前會計期間開始時保留溢利期初餘額的調整。允許提早應用。

本集團已於2021年1月1日提前採納該修訂本。然而，本集團尚未收到與Covid-19相關的租金寬減，並計劃在適用的應用期限內採用可行權宜方法。

2.4 Issued But Not Yet Effective Hong Kong Financial Reporting Standards (Continued)

Amendments to HKFRS 10 and HKAS 28 (2011) address an inconsistency between the requirements in HKFRS 10 and in HKAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss resulting from a downstream transaction when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to HKFRS 10 and HKAS 28 (2011) was removed by the HKICPA in January 2016 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

Amendments to HKAS 1 *Classification of Liabilities as Current or Non-current* clarify the requirements for classifying liabilities as current or non-current. The amendments specify that if an entity's right to defer settlement of a liability is subject to the entity complying with specified conditions, the entity has a right to defer settlement of the liability at the end of the reporting period if it complies with those conditions at that date. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability. The amendments also clarify the situations that are considered a settlement of a liability. The amendments are effective for annual periods beginning on or after 1 January 2023 and shall be applied retrospectively. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

2.4 已頒佈但尚未生效之香港財務報告(續)

香港財務報告準則第10號及香港會計準則第28號(2011年)修訂本針對香港財務報告準則第10號及香港會計準則第28號(2011年)之間有關投資者與其聯營公司或合營公司之間資產出售或注資兩者規定之不一致情況。該等修訂規定，當投資者與其聯營公司或合營公司之間的資產出售或注資構成一項業務時，須確認來個下游交易的全數收益或虧損。當交易涉及不構成一項業務之資產時，由該交易產生之收益或虧損於該投資者之損益內確認，惟僅以不相關投資者於該聯營公司或合營公司之權益為限。該等修訂已前瞻應用。香港會計師公會已於2016年1月剔除香港財務報告準則第10號及香港會計準則第28號(2011年)之修訂的以往強制生效日期，而新的強制生效日期將於對聯營公司及合營公司的會計處理完成更廣泛的檢討後釐定。然而，該等修訂現時可供採納。

香港會計準則第1號修訂本負債分類為即期或非即期澄清將負債分類為流動或非流動的規定。該等修訂指明，倘實體延遲償還負債的權利受限於實體符合特定條件，則倘該實體符合當日之條件，其有權於報告期末延遲償還負債。負債的分類不受該實體行使其延遲償還負債權利的可能性的影響。該等修訂亦澄清被視為償還負債的情況。該等修訂於2023年1月1日或之後開始的年度期間生效，並應追溯應用。允許提早應用。該等修訂預期不會對本集團的財務報表產生任何重大影響。

2.4 Issued But Not Yet Effective Hong Kong Financial Reporting Standards (Continued)

Amendments to HKAS 1 *Disclosure of Accounting Policies* require entities to disclose their material accounting policy information rather than their significant accounting policies. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. Amendments to HKFRS Practice Statement 2 provide non-mandatory guidance on how to apply the concept of materiality to accounting policy disclosures. Amendments to HKAS 1 are effective for annual periods beginning on or after 1 January 2023 and earlier application is permitted. Since the guidance provided in the amendments to HKFRS Practice Statement 2 is non-mandatory, an effective date for these amendments is not necessary. The Group is currently assessing the impact of the amendments on the Group's accounting policy disclosures.

Amendments to HKAS 8 clarify the distinction between changes in accounting estimates and changes in accounting policies. Accounting estimates are defined as monetary amounts in financial statements that are subject to measurement uncertainty. The amendments also clarify how entities use measurement techniques and inputs to develop accounting estimates. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

2.4 已頒佈但尚未生效之香港財務報告(續)

香港會計準則第1號修訂本會計政策披露要求實體披露其重要會計政策之資料而非其主要會計政策。倘若會計政策資料與實體之財務報表中包含之其他資料一併考慮，可合理預期其將影響一般目的財務報表之主要使用者以此等財務報表作出之決定，則有關資料屬重大。香港財務報告準則實務報告第2號修訂本為如何將重要性之概念應用於會計政策披露提供非強制指引。香港會計準則第1號修訂本於2023年1月1日或之後開始之年度期間生效，允許提前應用。由於香港財務報告準則實務報告第2號修訂本提供之指引屬非強制性質，因此該等修訂並無必要之生效日期。本集團現正評估該等修訂對本集團會計政策披露之影響。

香港會計準則第8號修訂本澄清會計估計變化與會計政策變化之間的區別。會計估計乃界定為財務報表中存在計量不確定性之貨幣金額。有關修訂亦澄清實體如何使用計量技術及輸入數據以得出會計估計。有關修訂於2023年1月1日或之後開始之年度報告期間生效，並應用於該期間開始時或之後發生之會計政策變化和會計估計變化，允許提前應用。預計該等修訂不會對本集團之財務報表產生任何重大影響。

Amendments to HKAS 12 narrow the scope of the initial recognition exception so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences, such as leases and decommissioning obligations. Therefore, entities are required to recognise a deferred tax asset and a deferred tax liability for temporary differences arising from these transactions. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and shall be applied to transactions related to leases and decommissioning obligations at the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to the opening balance of retained profits or other component of equity as appropriate at that date. In addition, the amendments shall be applied prospectively to transactions other than leases and decommissioning obligations. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied retrospectively only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

2.5 Summary of Significant Accounting Policies (Continued)

Investments in associates and joint ventures (Continued)

The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures is included in the consolidated statement of profit or loss and consolidated other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the associates or joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates and joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates or joint ventures is included as part of the Group's investments in associates or joint ventures.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

When an investment in an associate or a joint venture is classified as held for sale, it is accounted for in accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*.

於聯營公司及合營企業之投資(續)

本集團應佔聯營公司及合營企業收購後業績及其他全面收入分別計入綜合損益表及綜合其他全面收入。此外，倘於聯營公司或合營企業權益內直接確認一項變動，則本集團會於綜合權益變動表內確認其應佔之任何有關變動(倘適用)。本集團與聯營公司或合營企業交易所產生的未變現盈虧，均按本集團於聯營公司及合營企業的投資為限進行抵銷，除非未變現虧損顯示已轉讓資產出現減值則除外。收購聯營公司或合營企業所產生的商譽計入本集團於聯營公司或合營企業之投資項下。

倘於聯營公司的投資變成於合營企業的投資(或相反情況)，則不會重新計量保留權益。取而代之，該投資繼續按權益法入賬。在所有其他情況下，於失去對聯營公司的重大影響力或合營企業之共同控制權後，本集團按其公允值計量及確認任何保留投資。於失去重大影響力或共同控制權時聯營公司或合營企業的賬面金額與保留投資的公允值及出售所得款項之間的任何差額於損益內確認。

倘於聯營公司或合營企業之投資分類為持作出售，則根據香港財務報告準則第5號持作出售非流動資產及已終止經營業務入賬。

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation either at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets includes an input and a substantive process that together significantly contribute to the ability to create outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the

Business combinations and goodwill (Continued)

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

2.5 Summary of Significant Accounting Policies (Continued)

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, investment properties, deferred tax assets and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs. In testing a cash-generating unit for impairment, a portion of the carrying amount of a corporate asset (e.g., a headquarters building) is allocated to an individual cash-generating unit if it can be allocated on a reasonable and consistent basis or, otherwise, to the smallest group of cash-generating units.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An impairment loss is charged to the statement of profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

2.5 主要會計政策概要(續)

非金融資產減值

倘有跡象顯示出現減值，或須就資產（存貨、投資物業、遞延稅項資產及金融資產除外）進行年度減值測試時，則評估資產之可收回款項。資產的可收回金額乃資產或現金產生單位的使用價值，以及其公允值減出售成本兩者的較高者，並就個別資產釐定，除非資產並不產生很大程度上獨立於其他資產或資產組別的現金流入，在此情況下，可收回金額則按資產所屬的現金產生單位予以釐定。在對現金產生單位進行減值測試時，倘能按合理一致的基準進行分配，則公司資產（如總部樓宇）的一部分賬面值會分配至個別現金產生單位，否則會分配至最小的現金產生單位組別。

減值虧損僅於資產的賬面值超過其可收回金額時確認。在評估使用價值時，估計日後現金流量按能反映當時市場對貨幣時間價值及該項資產特定風險之評估的除稅前貼現率貼現至現值。減值虧損於其產生期間自損益表扣除，並列於減值資產項下之開支類別。

減值虧損於其產生期間自損益表扣除，除非該資產以重估值列賬，在此情況下，減值虧損根據該重估資產之相關會計政策入賬。

2.5 Summary of Significant Accounting Policies (Continued)

Impairment of non-financial assets (Continued)

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost or valuation less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Investment properties are interests in land and buildings (including the leasehold property held as a right-of-use asset which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Intangible assets (other than goodwill) (Continued)

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cash-generating unit level. Such intangible assets are not amortised. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether the indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is accounted for on a prospective basis.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

無形資產(商譽除外)(續)

對使用年期不確定的無形資產，無論是否存在減值跡象，每年均進行減值測試。此類無形資產不予攤銷，在每個會計期間對其使用壽命進行覆核。如果有證據表明使用年期有限，則按上述使用年期有限的無形資產的政策進行會計處理。

租賃

本集團於合約開始時評估合約是否為或包含租賃。倘合約為換取代價而給予在一段時間內控制使用已識別資產之權利，則該合約為或包含租賃。

本集團作為承租人

本集團對所有租賃(惟短期租賃及低價值資產租賃除外)採取單一確認及計量方法。本集團確認租賃負債以作出租賃款項，而使用權資產指使用相關資產之權利。

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Buildings	Over the lease term
-----------	---------------------

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

When a right-of-use asset meets the definition of investment property, it is included in investment properties. The corresponding right-of-use asset is initially measured at cost, and subsequently measured at fair value, in accordance with the Group's policy for "investment properties".

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

Leases (Continued)

Group as a lessee (Continued)

(b) Lease liabilities (Continued)

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

(c) Short-term leases

The Group applies the short-term lease recognition exemption to its short-term leases of office premises (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognised as an expense on a straight-line basis over the lease term.

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

於計算租賃付款之現值時，倘租賃中所隱含的利率不易釐定，本集團則於租賃開始日期使用增量借貸利率計算。於開始日期後，租賃負債金額增加反映利息增加，而減少則為租賃付款所致。此外，倘出現修改、租期變動、租賃付款變動（如因指數或比率變動而產生的未來租賃付款變動）或購買相關資產的選擇權評估更改，則租賃負債的賬面值將重新計量。

(c) 短期租賃

本集團將短期租賃確認豁免應用於辦公物業的短期租賃（即自租賃開始日期起計租期為十二個月或以下，並且不包含購買選擇權的租賃）。短期租賃的租賃付款於租賃期內以直線法確認為開支。

Leases (Continued)

Group as a lessor (Continued)

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, are accounted for as finance leases.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost and fair value through profit or loss.

2.5 Summary of Significant Accounting Policies (Continued)

Investments and other financial assets (Continued)

Initial recognition and measurement (Continued)

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial assets at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in profit or loss.

This category includes derivative instruments and equity investments which the Group had not irrevocably elected to classify at fair value through other comprehensive income. Dividends on equity investments classified as financial assets at fair value through profit or loss are also recognised in profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

Financial assets at fair value through profit or loss (Continued)

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in the statement of profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired, or
- the Group has transferred its rights to receive cash flows from the asset, or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

本集團已轉讓收取資產現金流量的權利或有責任根據「轉手」安排在無重大延誤的情況下將已收取的現金流量全部支付予第三方;及(a)本集團已轉讓該資產的絕大部分風險及回報,或(b)本集團既無轉讓亦無保留該資產的絕大部分風險及回報,但已轉讓資產的控制權。

倘本集團已轉讓其收取資產現金流量的權利或已訂立轉手安排,本集團評估其是否保留該資產擁有權的風險及回報以及相關程度。倘本集團既無轉讓亦無保留該資產絕大部分風險及回報,亦無轉讓該資產的控制權,本集團繼續按本集團之持續參與確認所轉讓資產。在此情況下,本集團亦會確認相關負債。已轉讓資產及相關負債以本集團保留之相關權利及義務為基準計量。

2.5 Summary of Significant Accounting Policies (Continued)

Derecognition of financial assets (Continued)

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of the consideration that the Group could be required to repay.

Impairment of financial assets

The Group recognises an allowance for expected credit losses (“ECLs”) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

金融資產減值

本集團對並非以公允值計量且其變動計入損益而持有的所有債務工具確認預期信貸虧損(「預期信貸虧損」)撥備。預期信貸虧損乃基於根據合約應付的合約現金流量與本集團預期收取的所有現金流量之間的差額，按原有實際利率相近值貼現。預期現金流量將包括同為合約條款組成部分的自銷售所持有抵押品所得的現金流量或其他信貸提升物品。

一般方法

預期信貸虧損於兩個階段獲確認。就自初始確認起信貸風險並無顯著增加的信貸風險而言，對因未來十二個月內可能發生的違約事件而導致的信貸虧損計提預期信貸虧損(十二個月預期信貸虧損)。就自初始確認起經已顯著增加的信貸風險而言，不論何時發生違約事件，均須在風險餘下年期內就預期虧損計提虧損撥備(全期預期信貸虧損)。

Stage 3 — Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach to measure the loss allowance at an amount equal to lifetime ECLs. Under the simplified approach, the Group does not track changes in credit risk. Instead, it recognizes a loss allowance based on expected credit losses (ECLs) that result from the default risk of the receivables at the reporting date. The Group estimates ECLs based on its historical credit loss experience, adjusted for differences in risk characteristics, supported by statistical analysis. For trade receivables that do not contain a significant financing component, the Group applies the simplified approach to measure the loss allowance at an amount equal to lifetime ECLs. For trade receivables that contain a significant financing component, the Group applies the simplified approach to measure the loss allowance at an amount equal to lifetime ECLs. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, borrowings, convertible bonds and derivative financial instruments.

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contracts at the higher of: (i) the ECL allowance determined in accordance with the policy as set out in "Impairment of financial assets"; and (ii) the amount initially recognised less, when appropriate, the cumulative amount of income recognised.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits and assets similar in nature to cash, which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from goodwill or the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with interests in subsidiaries, associates and joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Income tax (Continued)

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with interests in subsidiaries, associates and joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Income tax (Continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when or as control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group with a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

本財務報表以港元呈列，此乃本公司之功能貨幣。本集團各實體自行釐定其功能貨幣，各實體的財務報表所載項目以其功能貨幣計值。本集團各實體錄得之外幣交易初步按交易日彼等各自之功能貨幣匯率換算入賬。以外幣計值之貨幣資產及負債按功能貨幣於報告期末適用之匯率換算。因結算或換算貨幣項目而產生之所有差額均於損益表確認。

Foreign currencies (Continued)

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

2.5 Summary of Significant Accounting Policies

(Continued)

Foreign currencies (Continued)

The functional currencies of certain overseas subsidiaries, an associate and joint ventures are currencies other than Hong Kong dollars. As at the end of the reporting period, the assets and liabilities of these entities are translated into Hong Kong dollars at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into Hong Kong dollars at the exchange rates that approximate to those prevailing at the dates of the transactions. The resulting exchange differences are recognised in other comprehensive income and accumulated in the translation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

3. Significant Accounting Judgements and Estimates

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Property lease classification – Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all the fair value of the commercial property, that it retains substantially all the significant risks and rewards incidental to ownership of these properties which are leased out and accounts for the contracts as operating leases.

3. 重大會計判斷及估計

於編製本集團財務報表時，管理層須作出判斷、估計及假設，而有關判斷、估計及假設會對收入、開支、資產及負債之申報金額及其隨附披露，以及或然負債之披露造成影響。該等假設及估計之不確定性可能引致須對在未來遭受影響之資產或負債之賬面值進行重大調整。

判斷

於應用本集團會計政策之過程中，除該等涉及估計者外，管理層已作出以下對財務報表所確認的金額有最重大影響之判斷：

物業租賃分類 — 本集團為出租人

本集團已就其投資物業組合訂立商業物業租賃。根據對有關安排條款及條件之評估，如租期不構成商用物業之經濟壽命的主要部分且最低租賃款項現值不等於商用物業之絕大部分公允值，本集團已釐定其保留該等租賃物業所有權附帶的絕大部分主要風險及回報，並將有關合約以經營租賃入賬。

3. Significant Accounting Judgements and Estimates (Continued)

Judgements (Continued)

Classification between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for these portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

Deferred taxation on investment properties

For the purpose of measuring deferred taxation arising from investment properties that are measured using the fair value model, the directors of the Company have reviewed the Group's investment property portfolios and concluded that the Group's investment properties of HK\$2,730,045,000 (2020: HK\$2,624,229,000), representing properties for residential or commercial use, are held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time, rather than through sale. Therefore, in measuring the Group's deferred taxation on investment properties, the directors of the Company have determined that the presumption that the carrying amounts of these investment properties measured using the fair value model are recovered entirely through sale is rebutted. Accordingly, deferred taxation in relation to these investment properties has been measured based on the tax consequences of recovering the carrying amounts entirely through use.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

判斷(續)

投資物業的遞延稅項

就計量投資物業產生的遞延稅項(採用公允值模式計量者)而言,本公司董事已審閱本集團的投資物業組合,並認為本集團的投資物業為2,730,045,000港元(2020年:2,624,229,000港元)作商業用途的物業乃按隨時間而銷售消耗投資物業內含的絕大部分經濟利益為目的商業模式持有。因此,計量本集團投資物業的遞延稅項時,本公司董事已釐定採用公允值模式計量的該等投資物業的賬面值全部透過銷售收回的假設已被駁回。因此,有關此等投資物業的遞延稅項已根據全部透過使用收回賬面值的稅務結果計量。

估計不確定性

以下是於本報告期末關於對未來的重要假設及其他估計不確定的主要來源,該等假設及估計存在可能導致下一個財政年度的資產及負債之賬面值有重大調整風險。

Estimation uncertainty (Continued)

Provision for ECL for amounts due from an associate and joint ventures and loan receivables

The Group individually calculates ECLs for its amounts due from an associate and joint ventures and loan receivables. The measurement of ECL under HKFRS 9 for the Group's amounts due from an associate and joint ventures and loan receivables requires judgement on, in particular, the estimation of the amount and timing of future cash flows when determining impairment losses and the assessment of any significant increase in credit risk. These estimates are driven by a number of factors, where the change of the factors which result in different levels of allowances, a lower/higher impairment loss may arise. The Group uses its credit loss experience, repayment history and financial position of the Group's associate and joint venture, debtors and their guarantors (if any) and an assessment of both the current and forecast general economic conditions to estimate the probability of default, the loss given default and the impact on the forward-looking information. At each reporting date, the Group assesses whether there has been a significant increase in credit risk for exposures since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Group considers reasonable, supportable and available information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and also forward-looking analysis.

In relation to the valuation of amounts due from an associate and joint ventures, in addition to the above, the management has exercised judgement in estimating the timing and future cash flows to be recovered with reference to the timing of the collection of receivable from the associate and joint ventures, in order to determine the recoverability of the amounts due from the associate and joint ventures.

Estimation of fair value of investment properties and leasehold land and buildings

At the end of the reporting period, the Group's investment properties and leasehold land and buildings under property, plant and equipment are stated at fair value of HK\$2,730,045,000 (2020: HK\$2,624,229,000) and HK\$240,742,000 (2020: HK\$235,663,000), respectively, based on the valuation performed by independent qualified professional valuers. In determining the fair value, the valuers have based on investment approach and market value basis, which involves, inter-alia, certain estimates, including capitalisation rate, market rent, term yields, reversion yields and comparable market transactions. In relying on the valuation, management has exercised judgement and is satisfied that the method of valuation is reflective of the current market conditions.

Further details, including the key assumptions used for fair value measurement and a sensitivity analysis, for investment properties and leasehold land and buildings, are disclosed in notes 13 and 14 to the financial statements, respectively.

Valuation of financial assets at fair value through profit or loss

When the fair value of financial assets at fair value through profit or loss recorded in the consolidated statement of financial position cannot be derived from active markets, the fair value is determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. The estimates include considerations of certain unobservable inputs as detailed in note 37 to the financial statements. Changes in assumptions about these factors could affect the reported fair value of financial assets at fair value through profit or loss in the consolidated statement of financial position and the level where the financial assets at fair value through profit or loss are disclosed in the fair value hierarchy. Significant management judgements and estimates are required in determining the valuation of financial instruments which are categorised as Level 3 in the fair value hierarchy. As at 31 December 2021, the amount of financial assets at fair value through profit or loss was HK\$1,120,368,000 (2020: HK\$877,986,000). Further details are disclosed in note 19 to the financial statements.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/loss, which is a measure of adjusted profit/loss before tax. The adjusted profit/loss before tax is measured consistently with the Group's profit/loss before tax except that non-lease-related finance costs, share of results of associates and joint ventures and corporate expenses are excluded from such measurement.

No segment assets or liabilities is presented as the chief operating decision maker does not regularly review segment assets and liabilities.

13. Investment Properties (Continued)

Fair value hierarchy (Continued)

The fair value was determined by reference to comparable sales transactions available in the relevant market or by investment approach, where the market rentals of all lettable units of the properties are assessed and discounted at the market yield expected by investors for these types of properties. The market rentals are assessed by reference to the rentals achieved in the lettable units of the properties as well as other lettings of similar properties in the neighbourhood. The capitalisation rate adopted is made by reference to the yields derived from analysing the sales transactions of similar commercial properties and adjusted to take into account the market expectation from property investors to reflect factors specific to the Group's investment properties.

A significant increase/decrease in the market rent and adjusted transaction price in isolation would result in a significant increase/decrease in the fair value of the investment properties. A significant increase/decrease in the capitalisation rate in isolation would result in a significant decrease/increase in the fair value of the investment properties.

13. 投資物業(續)

公允值等級(續)

公允值是參考於相關市場之可供比較的銷售交易或以投資法藉評估所有可出租物業單位之市場租金及使用投資者就此類物業所預期的市場回報率折現而釐定。市場租金評估是參考已完成出租物業單位之租金及其他鄰近之相若出租物業作出。資本化率是參考分析相若商業物業之銷售交易所得之收益率而作出，並予以調整以計及物業投資者的市場預期從而反映本集團投資物業之特別因素。

投資物業市場租金及經調整交易價格單獨大幅上升/下降將導致其公允值大幅增加/減少。資本化率單獨大幅上升/下降將導致投資物業公允值大幅減少/增加。

Intangible assets related to the licenses for the provision of financial services were arising from the acquisition of a subsidiary that is not a business (note 31). The licenses have no finite period over which the Group can use to generate net cash flows. The directors consider the licenses as having indefinite useful lives as they are expected to contribute to net cash inflows indefinitely. The licenses will not be amortised and are carried at cost less any subsequent accumulated impairment losses until their useful lives are determined to be finite.

與提供金融服務牌照相關的無形資產來自收購一家並非為業務的附屬公司(附註31)。牌照並無有限期，而於有關期間內本集團可使用牌照以帶來現金流量淨額。由於牌照預期可無限期帶來淨現金流入，因此董事將牌照視為由可無限使用年期。牌照不會予以攤銷，並按成本減任何後續累計減值虧損列賬，直至其使用年期獲確定為有限。

18. Interests in Joint Ventures (Continued)

As at 31 December 2021, except for the amount of HK\$1,506,954,000 (2020: HK\$969,951,000) which was unsecured, non-trade in nature, carrying interest at fixed rates ranged between 4.35% and 8% (2020: 4.35%) per annum and repayable on 31 December 2022, subject to the financial capability of the joint venture to repay as scheduled, the amounts due from joint ventures were unsecured, non-trade in nature, interest-free and repayable on demand.

During the year ended 31 December 2021, an impairment loss of HK\$304,634,000 (2020: Nil) was recognised by the Group for the investment in ZHYQ (as defined below). The recoverable amount of the Group's investment in ZHYQ was determined based on value-in-use calculations using cash flow projections based on financial budgets covering a five-year period approved by senior management. The pre-tax discount rate applied to the cash flow projections was 15.28%. The cash flow projections beyond the period of financial budgets were extrapolated using a growth rate of 2%, which did not exceed the long-term average growth rate of the industry. Based on the impairment assessment performed, the recoverable amount was approximately HK\$1,544 million. Key assumptions on which management has based its cash flow projections to perform impairment testing includes: (i) sales growth rates and budgeted gross margins on the petrochemical business which is based on expected market development and management experience in the industry; and (ii) pre-tax discount rate which reflects specific risks relating to the underlying business.

An impairment analysis was performed at each reporting date by considering the probability of default of the amounts due from joint ventures. As at 31 December 2021, the probability of default applied ranged from 0.1% to 2.6% (2020: 0.2% to 1.1%) and the loss given default was estimated to be 31.2% (2020: 25.4%). As at 31 December 2021 and 2020, none of the financial assets included in the above balances were overdue and all balances were categorised within Stage 1 for the assessment of ECLs.

於2021年12月31日，除1,506,954,000港元(2020年：969,951,000港元)的金額為無抵押、非交易性、以固定年利率介乎4.35%及8%(2020年：4.35%)計息及須於2022年12月31日償還外，視合營企業的財務能力如期償還而定，應收合營企業款為無抵押、非交易性、不計息及須按要求償還。

於截至2021年12月31日止年度，本集團就於中海油氣(定義見下文)之投資確認減值虧損304,634,000港元(2020年：無)。本集團於中海油氣之投資的可收回金額乃根據高級管理層批准的五年期財務預算，使用現金流量預測計算使用價值而釐定。適用於現金流量預測的稅前貼現率為15.28%。超出財務預算期的現金流量預測採用2%的增長率推測，並未超過行業長期平均增長率。根據進行的減值評估，可收回金額約為1,544,000,000港元。管理層根據其現金流量預測進行減值測試的主要假設包括：(i)基於行業預期市場發展及管理經驗的石化業務的銷售增長率及預算毛利率；(ii)反映與相關業務相關的特定風險的稅前貼現率。

於各報告日，經考慮應收合營企業的違約概率後進行減值分析。於2021年12月31日，所應用之違約概率為0.1%至2.6%(2020年：0.2%至1.1%)，估計違約損失率為31.2%(2020年：25.4%)。於2021年及2020年12月31日，上述結餘中的金融資產概無逾期，所有結餘均歸類為評估預期信貸虧損的第一階段。

During the year ended 31 December 2021, no ECL allowance was provided as a result of the loans of the joint venture (2020: Nil).

28. Deferred Tax Liabilities (Continued)

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rate is 5%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008.

At 31 December 2021 and 2020, no deferred tax was recognised for withholding taxes that would be payable on the unremitted earnings that were subject to withholding taxes of the Group's subsidiaries established in Mainland China. In the opinion of the directors of the Company, it is not probable that these subsidiaries will distribute such earnings in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities were not recognised totalled approximately HK\$2,671,917,000 as at 31 December 2021 (2020: HK\$2,778,975,000).

37. Fair Value and Fair Value Hierarchy of Financial Instruments

The carrying amounts of the Group's financial instruments reasonably approximate to fair values.

Management has assessed that the fair values of trade receivables, financial assets included in deposits, prepayments and other receivables, amounts due from joint ventures, loan receivables, pledged bank deposits, cash and bank balances, financial liabilities included in accrued charges, rental deposits and other payables and the current portion of borrowings approximate to their carrying amounts largely due to the short-term maturities of these instruments.

The Group's finance department headed by the directors of the Company is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance department reports directly to the directors and the audit committee of the Company. At each reporting date, the finance department of the Group analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the directors of the Company. The valuation process and results are discussed with the audit committee twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instruments could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

37. 金融工具之公允值及公允值等級

本集團金融工具之賬面值合理地與公允值相若。

管理層已評估應收賬款、計入按金、預付款及其他應收款之金融資產、應收合營企業、應收貸款、抵押銀行存款、現金及銀行結餘、計入應計費用、租務按金及其他應付款之金融負債以及貸款的流動部分之公允值與其賬面值合理相若，主要由於該等工具之到期日短。

以本公司董事為首的本集團財務部門負責釐定金融工具公允值計量之政策及程序。財務部門直接向本公司董事及審核委員會報告。於各報告日期，本集團財務部門會分析金融工具之價值變動並釐定估值所用之主要輸入數據。估值由本公司董事審核及批准。估值過程及結果由審核委員會每年討論兩次，以便呈列中期及年度財務報告。

金融資產及負債之公允值按金融工具由各方自願在現有交易中可交換之金額入賬，強制或清算銷售除外。

37. Fair Value and Fair Value Hierarchy of Financial Instruments (Continued)

The following methods and assumptions were used to estimate the fair values:

The fair values of non-current portion of amount due from an associate, loan receivables and borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The fair value of the liability component of the convertible bonds is estimated by discounting the expected future cash flows using an equivalent market interest rate for a similar convertible bond with consideration of the Group's own non-performance risk. The changes in fair value as a result of the Group's own non-performance risk for borrowings as at 31 December 2021 and 2020 were assessed to be insignificant. In the opinion of the directors of the Company, since their carrying amounts are not significantly different from their respective fair values, no disclosure of fair values of these financial instruments is made.

The fair values of the listed equity investments are based on their quoted market prices. The fair values of certain club debentures have been valued based on historical transaction price from the relevant institutions, which are classified as Level 2. The fair values of unlisted securities and unlisted funds are based on adjusted net assets approach by adjusting the book value of assets and liabilities of investees to their fair values, or estimated by using a discounted cash flow valuation model based on the contractual disposal price of an unlisted security.

The fair value of the non-performing asset portfolio is estimated by discounting the expected future cash flows using rates for instruments with similar terms, credit risk and the aggregate of the values of the underlying collateral secured to the respective outstanding receivables owned by the creditors. The Group's own non-performance risk for non-performing asset portfolio as at 31 December 2021 and 2020 was assessed to be insignificant.

37. 金融工具之公允值及公允值等級 (續)

估計公允值時所用之方法及假設載述如下：

應收一家聯營公司款、應收貸款及借貸的流動部分的公允值乃透過使用當前可供金融工具使用之利率按類似條款、信用風險及餘下到期日，貼現預期未來現金流量而計算。考慮到本集團之不履約風險，可換股債券負債部分之公允值按類似可換股債券之同等市場利率貼現預期未來現金流量進行估計。於2021年及2020年12月31日，因本集團本身借貸之不履約風險而引致之公允值變動被評定為並不重大。本公司董事認為，由於其賬面值與其各自的公允值並無明顯差異，故並無披露該等金融工具的公允值。

上市股本投資之公允值乃基於市場報價釐定。若干會所債券之公允值乃按相關工具過往之交易價為基準估值，故列為第2級。非上市證券及非上市基金之公允值乃將被投資公司之資產及負債賬面值調整至公允值，根據經調整淨資產法釐定，或根據一項非上市證券之合約出售金額使用折現現金流量模式估計。

不良資產組合之公允值乃使用具類似條款及信用風險的工具之貼現率，及就債權人所擁有之各未償還應收款作出抵押之相關抵押品之總價值貼現之預期未來現金流量進行估計。於2021年及2020年12月31日，本集團就不良資產組合承受之違約風險經評估為微不足道。

37. Fair Value and Fair Value Hierarchy of Financial Instruments (Continued)

The directors of the Company believe that the estimated fair values resulting from the valuation technique, which are recorded in the consolidated statement of financial position, and the related changes in fair values, which are recorded in profit or loss, are reasonable, and that they were the most appropriate values at the end of the reporting period.

Below is a summary of significant unobservable inputs to the valuation of unlisted equity securities, unlisted funds and non-performing asset portfolio:

	Valuation techniques 估值方法	Significant unobservable inputs 重大不可觀察輸入數據	2021	2020
Unlisted equity securities and unlisted funds	Adjusted net asset approach	Book value of assets and liabilities of the investees adjusted to their fair value (HK\$ million)	532	648
非上市股本證券及非上市基金	經調整的淨資產法	被投資公司之資產及負債的賬面值調整至其公允值(百萬港元)		
Non-performing assets portfolio	Discounted cash flow approach	Aggregate of the valuation of the individual underlying collateral secured to the respective outstanding receivables owned by the creditors (HK\$ million)	565	223
不良資產組合	折現現金流量法	對債權人所擁有的相應未償還應收款作抵押的個別相關抵押品的估值總額(百萬港元)		

A 1% increase/decrease in the fair values of assets and liabilities of the investees would result in an increase/a decrease in the fair value of the unlisted equity securities of HK\$5,320,000 (2020: HK\$6,480,000).

A 1% increase/decrease in the collateral for the respective non-performing assets would result in an increase/a decrease in the fair value of the non-performing assets portfolio of HK\$5,650,000 (2020: HK\$2,230,000).

37. 金融工具之公允值及公允值等級 (續)

本公司董事認為，由估值技術所得出之估計公允值(計入綜合財務狀況表)及公允值相關變動(計入損益表)屬合理，且為報告期末最合適之估值。

以下為非上市股本證券、非上市基金及不良資產組合估值的重大不可觀察輸入數據概要：

被投資公司的資產及負債之公允值增加/減少1%，將導致非上市股本證券的公允值增加/減少5,320,000港元(2020年：6,480,000港元)。

相關不良資產的抵押品之公允值增加/減少1%，將導致不良資產組合的公允值分別增加/減少5,650,000港元(2020年：2,230,000港元)。

Foreign currency risk

The major financial assets and liabilities of the Group are denominated in the functional currency of the respective group entities. Other than a loan receivable which is denominated in United States dollars, the directors of the Company consider that the Group's exposure to foreign currency exchange risk is insignificant as the majority of the Group's transactions are denominated in the functional currency of each individual group entity.

During the year ended 31 December 2021, the Group did not use any financial instruments for hedging purposes (2020: Nil).

Credit risk

The Group only trades with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis.

The credit risk of the Group's other financial assets, which comprise loans receivable, amounts due from joint ventures and an associate, pledged bank deposits and cash and bank balance, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

For the Group's trade receivables, since the Group only trades with recognised and creditworthy third parties, there is no requirement for collateral. Concentration of credit risk is managed by counterparty. There is no significant concentration of credit risk for the Group's trade receivables.
